

GAGANA N

+91 8310301480 | gagananagendra02@gmail.com | [Linked In](#) | Bengaluru, Karnataka

PROFESSIONAL SUMMARY

Passionate STEM educator and B.Ed. candidate with proven ability to translate complex technical concepts into engaging, student-centered learning experiences. Combining strong Computer Science and Mathematics foundations with 2.4 years of professional experience in problem-solving, logical thinking, and systematic knowledge transfer. Skilled at breaking down abstract concepts into digestible lessons, mentoring learners through structured guidance, and fostering critical thinking in grades 6–10 across ICSE.

EDUCATION

Bachelor of Education

GPA 7/10 | Jun'25 – Apr'27

CHRIST (Deemed To Be University), Bengaluru

- Focus: Pedagogy, curriculum development, and instructional strategies for secondary education
- Internship at Sophia High School ICSE (Grades 6–8: Mathematics, Physics and Chemistry)

Bachelor of Engineering - Electronics and Instrumentation

Siddaganga Institute of Technology, Tumkur

GPA: 8.65/10 | Aug'18 – Aug'2022

- Strong foundation in Mathematics, Physics, Programming Logic, and Problem-Solving

WORK HISTORY AND EXPERIENCE

Technical Training & Mentorship | DeloitteUSI, Bengaluru | Jan 2023 – Apr 2025

- Led and mentored a 3-member development team, breaking down complex technical requirements into clear, actionable learning objectives and guiding team members through systematic problem-solving processes
- Translated abstract technical concepts into accessible explanations for cross-functional stakeholders with varying levels of technical understanding, similar to differentiating instruction for diverse learners
- Designed and delivered structured training sessions on new features and workflows, demonstrating step-by-step logical reasoning and systematic approaches to problem-solving

Content Creator | InfoConcept Capsule (YouTube Channel & Website) | Ongoing

- Created and published educational technology content, simplifying complex tech concepts for broader audiences
- Demonstrate ability to communicate technical ideas clearly and engagingly through multimedia formats
- Apply storytelling and visual learning principles to enhance understanding through key components of effective pedagogy

KEY SKILLS

Subject Matter Expertise:

- Computer Science: Programming fundamentals, computational thinking, web technologies (HTML, CSS, JavaScript)
- Mathematics: Strong foundation in logical reasoning, problem-solving, and quantitative analysis
- Science & Technology: Electronics, instrumentation, IoT applications, and STEM integration

Pedagogical Skills:

- Breaking down complex concepts into scaffolded, age-appropriate learning sequences
- Differentiating instruction based on learner needs and adapting explanations to varied comprehension levels
- Providing constructive feedback, mentoring, and guiding learners through incremental improvement

Technology Integration:

- Proficient with AI-powered educational tools (MagicSchool.ai, Curipod, Diffit)
- Familiarity with Learning Management Systems (LMS), online collaboration tools, and multimedia content creation
- Understanding of ISTE AI framework and responsible AI integration in educational settings

ACHIEVEMENTS & RECOGNITION

- Selected for the 45th Series of KSCST Student Project Programme (SPP) 2021–22 and awarded a state-level R&D grant of ₹6,000 for the project 'Water Pollution Monitoring Boat Using IoT' (ID: 45S_BE_2401)
- Recognized with 3 performance awards at Deloitte for excellence in delivery, teamwork, and innovation

CERTIFICATIONS

- Google Certified Educator Level 1 & 2
- Salesforce Certified AI Associate
- Magic school AI Educator Level 1 & 2
- AI Mastermind by Outskill
- AI Tools Workshop by Be10X

ADDITIONAL INFORMATION

- **Online Presence:** [Concept Capsule](#) (YouTube channel)
- **Personal Portfolio:** [My Website](#)
- **Technical Proficiency:** JavaScript HTML5, CSS3, Excel, MS Word, MS Powerpoint, Canva
- **Languages:** English Kannada, Hindi, Telugu
- **Interests:** STEM education innovation, AI literacy in schools, project-based learning, educational technology
